

## **Penzance Wheelers Club 10TT Thursday 15th August.**

After a lovely dry day, the rain started to fall during signing on and many of the early riders opted to bail out. Sandy Gourley wisely deciding that, after breaking his collar bone last year, it would be best not to take a chance in the wet conditions. Mike Tonkin also decided not race with splits in his tyres. Sol forgot his shoes and Ash Gower of Omega Pharma Quickstep opted to go home feeling cold.

Marshals were deployed and the start was on. Those that started were treated to the sight of two Cyclelogic Team Cool members, Martyn and Andy, dressed in banana suits as they didn't wish to wear hi-vis vests!

Neil Eddy of Cyclelogic held the top spot before PZW's own Mr Ayling stole the lead and the win with a time 24:01....

Big thanks to all those that helped.... Richard Goulden, Martyn Lewis, Andrew Ellis, Allan Askham, Steven Coram for marshalling.
